

Beginning June 2017, DMAS will begin holding bi-weekly provider webinars. These webinars will be divided by health care discipline (e.g. nursing facilities, behavioral health, etc). Providers can register for and then log into these webinars to have questions answered by DMAS and health plan staff. Each provider webinar can accommodate up to 100 registrants. DMAS will arrange for additional support if the number of registrants exceeds the anticipated capacity.

The schedule of webinars is as follows:

Hospital/Medical Provider webinars (for hospital representatives, physicians, nurses, pharmacists, and other health professionals providing care to CCC Plus individuals)
